

Transparency Template

One of the core values behind Progressive Acts is to enhance transparency in the electoral finance. As part of this process, we invite all candidates using the platform to provide within one month from the end of the campaign a report on the sources of their financing and their use.

This form does not replace in any way the candidates' eventual legal obligation to provide relevant authorities in the respective countries with reports concerning their campaign financing. We strongly advise you to verify your legal obligation in this regards with your lawyer or party.

a. General Information

Candidate name	
Election	
Election Date	
Party	
Currency
